

Quality Policy

To clarify and understand customer needs and specifications and deliver excellence in manufacturing high value-added products through the applied skills of talented people and good processes; investment in continuous improvement of our people, processes and service providers; and, as an employee owned company, accountability to each other, our customers, and other stakeholders, is everyone's responsibility.

Adhering to these core principles will ensure that we meet or exceed the expectations and requirements of our customers

Adopted September 20, 2004

Amended July 20, 2018
